

# The most advanced technology for improving cellular coverage.

## Smart Cellular Coverage, Clearly Better

The Cel-Fi product line is the best solution available on the market today for addressing the universal challenge of poor cellular coverage in the office, at home, or on the road. Unconditionally network safe. Exceptional coverage footprint. Carrier-approved for 3G/4G/LTE for voice and data. Built for carriers, integrators, and IT professionals.

Cel-Fi by Nextivity offers the only range of repeater solutions that are compliant with Ofcom's new licence-exempt requirements (IR2102) and legal to use in the UK. Cel-Fi solutions are also licence-exempt under ComReg requirements for Ireland.
